PROFESSIONAL EXPERIENCE

Freelance Web Developer / Web Designer

Techzquad | 2019 – Present

- Led development of 15+ high-impact web projects, consistently delivering within budget and timeline constraints.
- Architected and deployed WordPress solutions with custom themes and plugins, improving client performance metrics.
- Managed full project lifecycle from concept to deployment, ensuring seamless hosting and domain management.

Ignition Consulting | October 2025 – Present

- Developed responsive e-commerce and corporate websites using modern frameworks, resulting in improved user engagement.
- Implemented SEO and performance optimizations that increased site traffic and conversion rates.
- Created compelling UI/UX designs that enhanced brand identity and user experience across multiple platforms.

Setup *Phils. Inc.* | Nov 2021 – May 2023

- Maintained and enhanced Laravel/Vue.js applications, improving API performance and system reliability.
- Optimized WordPress integrations for better functionality and user experience.
- Ensured system stability through proactive bug fixes and continuous improvement initiatives.

EDUCATION

Bachelor of Science in Information Technology

State University of Northern Negros (SUNN) | June 2014 – April 2019
